## Organizing Space and Place

© 2001, Maps International, Inc. Available from ODT, Inc., 1-800-736-1293

**There is perhaps nothing more revealing about our pre-conceived notions of space and place than to see the world “upside down.” After all, the world does not have a top...or a bottom...or a left side...or a right side. Granted, it’s hard to portray a three-dimensional sphere (globe) in two dimensions. But imagine the possibilities that free our minds when we redefine space and place.....**
